### Looking for the perfect solution for cracked heels, dry feet, or calluses?

Kerasal's [One Step Exfoliating Foot Moisturizer Therapy](#) is guaranteed to repair and soften even the toughest dry feet, cracked heels, and calluses when used as directed. Kerasal's Exfoliating Moisturizing Foot Ointment for cracked heels is a highly effective, dual action formula that both exfoliates and moisturizes in one step and is guaranteed to soften even the most severely damaged dry feet.

#### What are the benefits?

- For moderate to severely rough and cracked heels
- Rehydrates, exfoliates, and helps maintain moisture balance
- Softens calluses and controls callus build up
- Fast results, usually in 3–7 days
- Approved by the American Podiatric Medical Association

#### My thoughts!

Thanks to Kerasal, I had the wonderful opportunity to review the Kerasal Exfoliating Foot Moisturizer Therapy. My two year old keeps me on my feet all day so I constantly have dry feet and cracked heels. I used the Kerasal moisturizer for a week and the richly concentrated moisturizer worked exactly as promised. Each night before I went to bed, I massaged the cream onto my feet and covered them with the socks provided to me by Kerasal. After a week, my feet now feel soooo soft and smooth it's almost unbelievable! And I don't have any cracks in my heels now which I absolutely love. I really like having soft, smooth feet and as I got older, my feet got older too (which really bothered me!). I'm so glad that I got to use Kerasal's Exfoliating Foot Moisturizer Therapy. It's like I have my younger feet back! 😊
